#### LIBRARY TECHNOLOGY PROJECT PUBLICATIONS

The Library Technology Project is reporting the results of its major projects in published form. The following publications are now available and may be purchased from AIA's Publishing Department, 50 East Huron Street, Chicago, Illinois 60611, at the prices shown. Check or money order, payable to the American Library Association, should accompany all orders.

Study of Circulation Control System . . . . . \_\_\_\_\_ copies @ \$2.50

A guide to the selection of the most economical and efficient charging systems for public, college and university, and special libraries, including selection manuals for each category.

Selection manuals are available separately for:

Public libraries . . . . . \_\_\_\_\_ copies @ \$ .75  
College and university libraries . . . . . \_\_\_\_\_ copies @ \$ .75

Development of Performance Standards for Library Binding,  
Phase I . . . . . \_\_\_\_\_ copies @ \$1.00

Defines principal categories of library binding for which performance standards, specifications, and acceptance tests are needed.

Photocopying from Bound Volumes: A Study of Machines, Methods,  
and Materials . . . . . \_\_\_\_\_ copies @ \$5.00

An informative guide, by William R. Hawken, to basic copying procedures and a handbook for the operator of copying equipment, as well as an evaluation of 20 machines for copying from bound volumes.

Supplement No. 1 to Photocopying from Bound Volumes . . . . . \_\_\_\_\_ copies @ \$2.00

Evaluation of Docustat and 3M "107" Standard and Portable Dry Photocopying Machines.

Supplement No. 2 to Photocopying from Bound Volumes . . . . . \_\_\_\_\_ copies @ \$2.00

Evaluation of the SCM Corporation's Wedgelite, the new Copease Duplex Book Copier, and APECO's Panel-Lite.

Supplement No. 3 to Photocopying from Bound Volumes . . . . . copies @ \$5.00

Evaluation of Vico-Matic Copier, 3M "209" automatic Dry Photocopier, 3M "76" Dry Photocopier, 3M "70" Deluxe Transparency Maker, and Pacer International Corporation Sightscope Exposing Unit and Starr Photocopier.

Enlarged Prints from Library Microforms: A Study of Processes, Equipment, and Materials . . . . . copies @ \$4.00

Report of a study, by William R. Hawken, of microtext reader-printers now on the market which may have library application. The evaluation will not only assist librarians in the selection of equipment but will also be of value to manufacturers who are interested in designing equipment suited to library use.

<u>Protecting the Library and Its Resources: A Guide to</u>	
<u>Physical Protection and Insurance . . . . .</u>	copies @ \$6.00

A comprehensive report on providing physical protection of the library and the problem of insuring it. A model insurance policy for libraries is included, as well as supplementary material in appendix form on such subjects as the evaluation and insurance of great rarities, the salvage and restoration of damaged materials, and the evaluation of library materials for insurance purposes.

<u>Evaluation of Library Record Players--Series II . . . . .</u>	copies @ \$6.00
--	-----------------

Test reports and evaluation of eight monophonic and four stereophonic record players designed for use with headphones, with a discussion of components and how they function.

Catalog Card Reproduction . . . . . copies @ \$8.50

Discusses equipment and procedures for thirteen processes for obtaining catalog cards, ranging from purchase of printed cards through stencil and offset duplication to such processes as electrostatic and diffusion-transfer photocopying. Gives a method by which librarians can make systematic cost comparisons between processes currently used in their libraries and other processes which might be suitable.
